Mayor's Address

Gentlemen of the City Council :

It is both a great privilege and honor to address you this evening, and I hope we are all assembled here with the one thought uppermost in our minds, which is, to do our utmost for the welfare and progress of our city.

We have much to be thankful for during this period of reconstruction, which is taking place all over the country, that the mills and factories here have not been compelled to shut down, thus causing many of our citizens to be thrown out of employment.

I shall, from time to time, during the year, communicate to the City Council such information and recommend such measures as the interest of the City may require.

At this time I will call your attention to certain matters of general policy and to such particular subjects only as appear to me to be proper for immediate consideration.

ROADS, SIDEWALKS AND BRIDGES.

ROADS—There seems to be an unusual amount of work ahead of us in this department, especially State road work. 1919 State road work should by all means be given our preferred attention. The 1920 State road work was unavoidably delayed on account of the material not arriving until late in the Fall, and should be started early this Spring. 1921 State road work should be begun this Summer and completed before the ground freezes. Outlying roads will require considerable attention the coming year.

SIDEWALKS—It is our duty to see that the sidewalks are made safe for pedestrians by keeping them properly sanded and free from surplus snow.

BRIDGES—The new bridge across the Presumpscot River on Cumberland Street, which has been under construction for some time, will soon be completed, as the parts are expected to arrive in about three weeks. This should be a marked improvement to our city. All other bridges are in good condition.

RIVERBANK PARK.

We should do everything possible to improve Riverbank Park, so that we may eventually look upon it with greater pride and admiration. Is it not well worth a reasonable amount for promoting its beauty?

The lighting system should be attended to, as it has not proven very satisfactory in the past.

THE PUBLIC LIBRARY.

This is a building which receives much favorable comment from all visitors, and is also thoroughly appreciated by its patrons. Much credit is due the attendants for their courtesy to all, and for their great assistance to school children.

SCHOOLS.

The education of our growing boys and girls is an important factor to be considered while we are entrusted with the management of the City's affairs. Many of these scholars may at some time have the privilege of serving the City politically, or otherwise, and it is the duty of every citizen to see that the highest standard is maintained from the primary grades through to the completion of their High School terms.

The spirit of co-operation among the members of the faculty is a great asset which is not to be undervalued, and I feel that the education of our children will be efficiently handled to the best of their ability.

FIRE DEPARTMENT.

The fire department is worthy of the praise of our citizens, as the members have shown themselves to be very efficient in responding to alarms from rural districts as well as the city proper.

New equipment, such as hose, motor combination truck, etc., is needed, and minor repairs should be made on the buildings.

POLICE DEPARTMENT.

Our city receives the best of protection afforded by the police, but I would recommend that some method be devised by which headquarters may communicate with officers who are on duty at Cumberland Mills and Brown Street after 10 P. M. A call bell should be stationed where it could be easily heard by them when they are patrolling the various portions of their beat.

ALMSHOUSE AND CITY POOR.

The poor and needy should receive our constant attention, and every effort be made for their comfort and welfare.

I would deem it advisable to sell part of the Chapman Farm, as it is only an additional expense to the City. The buildings are in fairly good condition, and but few repairs are needed.

SEWERS.

This is a matter of vital importance to the health of the public, and the best of sanitary conditions should prevail at all times. I would recommend the extension of Spring Street sewer, and the sewer on Cole Street must have our earliest attention.

CEMETERIES.

The cemeteries are in splendid financial condition, and the work has been kept up very satisfactorily. I would recommend that Woodlawn Cemetery be enlarged by the purchase of adjoining land, as the number of unsold lots is fast decreasing.

CONCLUSION.

It is not my intention to detain you longer with a formal address. There is much more that might be said about the several departments of the City Government which can be more profitably discussed at the regular business meetings.

Let us endeavor to co-operate in such a manner that the public may receive our undivided service and attention.

Report of the Chief of Police

WESTBROOK, ME., Dec. 31, 1921.

To the Honorable Mayor and City Council :

I hereby submit the following report for the year 1921 :

REPORT OF THE Chief Engineer of Fire Department

To the Honorable Mayor and City Council of Westbrook.

GENTLEMEN :—I beg to submit the following report for the year 1921 :

FIRES AND ALARMS.

During the year 1921 there were 61 alarms as follows :

General alarms,	18
West End District calls,	20
East End District calls,	12
Rocky Hill District calls,	3
Still alarms,	8

VALUATION, INSURANCE AND DAMAGE ON BUILDINGS.

Valuation,	\$112,100.00
Insurance,	59,600.00
Damage,	5,043.00
Insurance Paid,	2,772.00

VALUATION, INSURANCE AND DAMAGE ON CONTENTS.

Valuation,	\$27,200.00
Insurance,	9,600.00
Damage,	1831.50
Insurance Paid,	1265.00

The Fire Department is in good condition at the present time.

A new chemical and hose motor truck was put in service at Hose 1 in April and has done excellent service. The Ladder Truck is in good condition and is doing good work.

Some needed supplies for the Department will be purchased the coming year, also a few repairs on the hose houses are needed.

To the Mayor, City Council and Committee on Fire Department, I wish to extend my thanks for their kind treatment and assistance during the year 1921.

Respectfully submitted,

EDWARD J. BARKER,

Chief Fire Department.

Industrial School—Messrs. Carll, Tapley and Dana.

CALENDAR.

Fall Term begins September 12, 1921. Fall Term ends Dec. 16, 1921.

Winter Term begins January 2, 1922. Winter term ends Feb. 17, 1922.

Easter Term begins Feb. 27, 1922. Closes April 28, 1922.

Spring Term begins May 8, 1922. Spring Term ends June 16, 1922.

The following holidays will be observed: Thanksgiving Day and the day following; Patriots' Day, April 19; Memorial Day, May 30.

STORM SIGNALS FOR NO SCHOOL.

Eight blasts of the fire whistle at 7.15 A. M. will be the signal for no school in the High School and grades below for the forenoon.

Eight blasts at 8 A. M. will be the signal for no school in all grades below the High School for the forenoon.

Eight blasts at 12.30 P. M. will be the signal for no school in the afternoon.

When the no school signal does not sound at 12.30 the grades and all afternoon High School classes will be in session.

REPORT OF Superintendent of Schools

TO THE SCHOOL BOARD AND CITIZENS OF WESTBROOK :

We hereby respectfully submit our report on the conditions obtaining in the schools of Westbrook for the fiscal year ending December thirty-first, nineteen hundred twenty-one.

The teaching force in the elementary schools has remained practically the same throughout the year, the only changes being at Highland Lake where Miss Mildred Davenport takes the place of Mrs. Lane; at Bridge Street where Miss Marion Mattocks and Mrs. Geneva Haskell succeed Miss Florence Spring and Miss Sara Abbott; and at Valentine Street where Miss Katherine Bartlett succeeds Miss Lillian Pennell, transferred to Warren School to fill the vacancy caused by the resignation of Mrs. Marion G. Mead.

In the High School staff the percentage of change has been greater, Misses Ethel MacCallum, Frances Malone, Marion Pendelton, Katherine Vose and Alice Barbour having resigned at the end of the school year in June, and Misses May H. Sargent, Beryl E. Cram, Grace W. Johnson, Alice Harvey and Dorothy Rounds having been elected to fill their places. The training and experience of these teachers will appear in the usual tables. The professional spirit of the teachers has been especially good, several having attended summer schools for teachers, and in addition to the usual professional reading the Teachers' Club has made arrangements for a series of lectures on educational subjects to be given during the winter.

A new outline of the work in the elementary schools has been completed and put in the hands of every teacher

in the graded schools in the city. This outline, while nine years are still required to complete the elementary course, makes some changes in the distribution of the work. It is based on a sub-primary grade and eight grades above. The grading will not be changed until the end of the present school-year in June, when the promotions will be from the present grade to the grade of the same number under the new outline. For example—A pupil in the eighth grade who has satisfactorily completed the work of the grade will be promoted to Grade Eight, while if any pupil has failed to do the work he will be in Grade Seven next year.

It is greatly to be desired that arrangements may be made for the opening of Kindergartens at the beginning of the next school year.

A glance at the table of enrollment in the several schools will show that our total enrollment has increased about twenty-five over last year, and that the increase is largely in the upper grades and the High School. It will also show that it is not probable that the present crowded conditions in these grades will be improved for some time to come, if ever, unless the city provides additional housing facilities. These additional rooms are needed to relieve conditions both at Forest and Bridge Street Schools. A study of the enrollment lists and the census lists shows that more than one-half of the pupils in the upper grades in the Bridge Street School live on the south side of the river, so it would seem that if additional rooms can be provided in the vicinity of either the Valentine or the Saco Street buildings, a sufficient number of pupils can be drawn from the Bridge Street School to relieve conditions there without asking any pupil to walk much of any farther than he is now doing. The conditions at Forest Street are somewhat harder to relieve, but we believe that, if one of the rooms in the second story of the Rocky Hill building can be finished, a sufficient number of pupils can attend that school without hardship, so that the conditions will be greatly improved.

It would be hardly fitting to close this report without

again speaking of the marked benefits which are coming to the children of the city through the co-operation of the Red Cross with our directors of Physical Training. As will be recalled, a School Nurse was furnished by the Red Cross at the opening of school in September nineteen twenty, and although we were satisfied of the wisdom of their act within a short time, its true value could not be appreciated until a longer period had elapsed. Our annual physical examination and notification of parents of defects found has been of great benefit in the past, but because of the very nature of the physical director's work, it has been impossible to follow up the examination with home visitation.

The school nurse has been able to do this work and it has resulted in the treatment and correction of many defects which would otherwise have been allowed to go without treatment, often resulting in serious trouble.

We want to take this opportunity to express our appreciation of the generous and hearty co-operation which has been shown by the professional men of the city in forwarding this work.

Permit me in closing to extend our sincere thanks to all who have by their courtesy and consideration done much to increase the efficiency of our schools, and to call your attention to the reports of the several principals and heads of departments, which, together with the several statistical tables, form a part of this report.

Respectfully submitted,

RICHARD J. LIBBY,

Supt. of Schools.

WESTBROOK, MAINE, Dec. 31st, 1921.

Report of the Principal of the High School

MR. R. J. LIBBY, Superintendent of Schools.

DEAR SIR:—The work of the Faculty of Westbrook High School has been along certain definite and well defined lines. Whatever success has been attained may be due in some degree to this fact, and any failure to reach a desired objective must be attributed to other causes than lack of a well known ideal.

It has been the aim of the teachers to neglect no group of students representing any degree of ability. Students who gave their utmost to preparation of lessons have had their work carefully regulated, while, at the same time, every moment available has been devoted to those who for various reasons came less adjusted to the requirements of the class room.

We were once more forcibly reminded that a neighboring city has a very persuasive argument when she needs a superior teacher and finds that we have such.

It was likewise with genuine regret that the students, citizens and faculty were obliged to say goodbye to so many efficient teachers at the end of the year—five in number.

Early in the year, at the request of several representative ladies, representing the sentiment of various clubs, a lunch counter was established, that the students might have the advantages of such without leaving the building. This venture has worked out successfully and may be considered to be a desirable adjunct to the school. The duties in connection with it have proved to be too exacting to be passed from one to another. That the project has been successful is due to the fact that some of the teachers have taken an interest in it, studied its needs and worked faithfully to see that they have been met.

The plan of arranging the courses of prospective students by personal interview with the student, accompanied by parents or guardian, has proved beneficial in some ways and should, if possible, be continued. It is not only desirable, however, but necessary that the work

be completed by August 31, in order that a daily program may be arranged before school begins. The losses that come otherwise are self evident.

I report that the teachers of Westbrook High School are spending more time in the building, in their efforts to promote progress in their respective departments, than has been the case for many years.

The Faculty is not unmindful of the large attendance High School Parent-Teacher night.

Following is the course of Study with explanatory notes and comments.

FIRST YEAR.

Required: English.

Elective: Algebra, Latin, *Greek History and †Roman History, 1 point each; General Science, Physical Training, 1 period, $\frac{1}{2}$ point; Sewing (for girls), 1 period, $\frac{1}{2}$ point; Manual Training (for boys), 1 period, $\frac{1}{2}$ point; Chorus, 1 period, $\frac{1}{2}$ point; Orchestra, 1 period, $\frac{1}{2}$ point.

SECOND YEAR.

Required: English.

Elective: Geometry, Latin, French, Spanish, European History, Physical Training, 1 period, $\frac{1}{2}$ point; Sewing (for girls), 1 period, $\frac{1}{2}$ point; Manual Training (for boys), 1 period, $\frac{1}{2}$ point; Chorus, 1 period, $\frac{1}{2}$ point; Orchestra, 1 period, $\frac{1}{2}$ point.

THIRD YEAR.

Required: English.

Elective: Latin, French, Spanish, English History, Chemistry, Review of Algebra, Debating, 1 period, $\frac{1}{2}$ point; Physical Training, 1 period, $\frac{1}{2}$ point; Hygiene, 1 period, $\frac{1}{2}$ point; Cooking (for girls), 1 period, $\frac{1}{2}$ point; Manual Training (for boys), 1 period, $\frac{1}{2}$ point; Chorus, 1 period, $\frac{1}{2}$ point; Orchestra, 1 period, $\frac{1}{2}$ point.

FOURTH YEAR.

Required: English.

Elective: Latin, French, Spanish, Physics, American History and Government, *Solid Geometry, 1 point;

†Trigonometry, 1 point; Debating, 1 period, $\frac{1}{2}$ point; Physical Training, 1 period, $\frac{1}{2}$ point; Hygiene, 1 period, $\frac{1}{2}$ point; Cooking (for girls), 1 period, $\frac{1}{2}$ point; Manual Training (for boys), 1 period, $\frac{1}{2}$ point; Chorus, 1 period, $\frac{1}{2}$ point; Orchestra, 1 period, $\frac{1}{2}$ point.

*To be taken the first half year.

†To be taken the second half year.

Each study is taken five periods per week and counts two points, unless otherwise indicated. No pupil will be allowed to elect studies which come earlier in the course than the class to which he belongs; but, by special permission, pupils may elect subjects from the Commercial Course and Mechanical Drawing and Shop Work from the Industrial Course.

COMMERCIAL COURSE.

This course may well be given careful consideration by parents of pupils who contemplate eventually preparing themselves for a business position. The department is well equipped with practically every business appliance which would be found in any up-to-date business college and the three teachers who now devote their whole time to commercial subjects are well qualified for their work. The graduates of this course are holding excellent positions; and it is a recognized fact that employers prefer the services of graduates of High School commercial courses to the graduates of business colleges, because of the fact that the High School offers, in addition to the so called business subjects, a thorough drill in English, which is required for all four years, and courses in commercial geography and commercial law. We shall be glad to show any interested person our equipment at any time.

An outline of the course follows:

FIRST YEAR.

Required: English, Commercial Arithmetic, Penmanship, 2 periods, $\frac{1}{2}$ point.

Elective: Same as in General Course.

SECOND YEAR.

Required: English, Bookkeeping, Commerce and Industry, Penmanship, 2 periods, $\frac{1}{2}$ point.

Elective: Same as in General Course.

THIRD YEAR.

Required: English, 4 periods; Penmanship, 2 periods, $\frac{1}{2}$ point; Typewriting, 1 period, 1 point; ‡Advanced Bookkeeping or Stenography.

Elective: Same as in General Course.

FOURTH YEAR.

Required: English, 4 periods; Penmanship, 2 periods, $\frac{1}{2}$ point.

Elective: *Commercial Law, 1 point, and †Economics, 1 point; Accounting, 4 periods, 2 points; Office Practice, 1 period, $\frac{1}{2}$ point; Stenography, Typewriting, 1 period, 1 point; all the electives in the General Course.

* To be taken the first half year.

† To be taken the second half year.

‡ All pupils are required to take either Advanced Bookkeeping or Stenography and Typewriting. If Stenography be elected, Typewriting must be taken with it.

INDUSTRIAL COURSE.

The Industrial Course has now passed beyond the experimental stage. It is approved by the Federal Board for Vocational Education created under the Smith-Hughes Act. It is possible for a boy to become a skilled machinist or pattern maker and at the same time fit himself for entrance to any of the best technical schools of the country. Comparatively few of the people of the city realize the opportunity which is being offered to the boys by this department, and it is hoped that more parents and pupils will give this grave thought before making the final decision as to what course they will elect in high school.

The following courses have been adopted.

NOTE—Students in other courses may enroll in classes of Mechanical Drawing and Shop Work whenever room is available.

FIRST YEAR.

COLLEGE ENTRANCE CERTIFICATES.

There seems to be a misunderstanding in regard to the position of this school before the College Entrance Certificate Board of New England. This school is on the approved list and a certificate from the principal will admit to any of the colleges represented on the board. This does not mean that each and every pupil who receives a diploma from this or any other approved school will be granted a certificate, but only those who by superior ability and effort have demonstrated during their high school course that they are able to do work of college grade with profit to themselves. Such ability will be shown by an average rank of not less than eighty-five per cent. for the four years of high school work.

MANUAL TRAINING.

An elective course in manual training and mechanical drawing is offered to the boys of the Freshman class. One afternoon a week is devoted to this subject, and pupils completing the course are credited with one-half point.

HOME ECONOMICS.

A course in Sewing is offered to the girls of the Freshman and Sophomore classes, and a course in Cooking to the girls of the Junior and Senior classes, each consisting of one lesson a week throughout the year. One-half point for each subject will be credited to those who do satisfactory work.

THE HIGH SCHOOL ASSEMBLY.

President, ROY SINCLAIR.

Vice-President, THOMAS BEATTY.

Secretary, RUBY SINCLAIR.

Treasurer, FRED HIGGINS.

The Assembly is an organization composed of all teachers and pupils in the High School. It exists for the purpose of promoting the general welfare of the school, and has control of the various athletic organizations and other interests of the student body.

The Westbrook High School has adopted the athletic rules of the State Association of Secondary Schools.

POINT SYSTEM.

Under the point system a study pursued satisfactorily for a year will entitle the pupil to a credit of two points. Half-year studies count one point each. Thirty-two points must be gained to entitle the pupil to a diploma.

A study is satisfactorily completed if an average of at least seventy per cent. is attained. A pupil who fails to reach seventy per cent. in any required study must take the same study the next year. If a failure is made in an elective, the same or another study may be taken the next year.

The course includes all studies required for admission to college. It is important that pupils preparing for college should decide as early in their course as possible upon the college they intend to enter, so that a proper selection of studies may be made.

All selections of studies are subject to the approval of the principal, and must be made in writing and signed by the parent or guardian of the pupil. Four studies will be required of each pupil. A larger or smaller number can be taken only with the consent of the principal.

Hardly a week goes by that I do not receive a communication from some college stating that the number of applicants exceeds many times the number that can be accepted. The idea to be conveyed is that preparation, to be successful, must be intensive, continued for four years, both in school and at home.

In closing I may say that the Faculty has not worked thus far without expressions of appreciation and encouragement from many parents, to whom its members feel very grateful.

Respectfully submitted,

ALBERT W. BOSTON,

Principal.

Report of the Principal of the Bridge Street Grammar School

MR. R. J. LIBBY, SUPERINTENDENT OF SCHOOLS :

DEAR SIR:—The year just closed has been a pleasant and profitable one for this school. The general health of the pupils has been good, the attendance regular, and we have been comparatively free from contagious diseases throughout the year.

The generous support and co-operation of the parents of the children attending this school has always been much appreciated by our teachers, and we welcome most heartily the efforts that are being put forth by the Parent-Teachers' Association to bring about a still closer relationship between the home and the school.

During the fall term a committee chosen from among the parents of the children attending this school, headed by Dr. and Mrs. Ferren, arranged a social meeting of the Association at the Bridge Street building. This meeting was largely attended and has been, we believe, productive of much good to the school.

A school to be efficient must train for citizenship, and the last few years have presented many opportunities for both civic and ethical training in the schools. Correlated with the regular work of the school, the Junior Red Cross, with its splendid record of service during the war and since, is a valuable asset in training our girls and boys in the duties and responsibilities of good citizenship.

There has been more than the usual interest manifested by the pupils this year in various activities along altruistic lines. Through the kindness of Miss Hall, the district nurse, a list of needy families in the city was given to the teachers of the school, and the pupils of each grade became responsible for a Thanksgiving dinner for one or more of these families.

Several of the grades have taken a great deal of interest in the making of Christmas booklets which were sent to the sick and shut-in children of Westbrook and Portland. The books in Westbrook were distributed

through Mrs. Beck at the Health Center. The others were sent mainly to the Children's Hospital in Portland.

These and similar activities, which really take little or no time from the regular work of the school, are, we believe, most helpful in training our young people for the duties and responsibilities of the future enrollment.

The registration in September, as forecasted in my report of last year, exceeds that of 1919-20, our largest grade, the seventh, numbering nearly seventy pupils. At the present time these pupils are seated in three different rooms, thirty-nine in our regular seventh grade room, ten with the sixth grade and seventeen in the room occupied by grade four. Those seated with grades four and six are taught in one of the cloak rooms on the second floor which has been fitted up as a temporary recitation room.

From many view points this arrangement is not a satisfactory one for the pupils. The passing of these pupils to and from their classes, although this had been kept down to the minimum, must lessen somewhat the efficiency of the teaching which is being carried on in those rooms where they are seated.

Again under the present arrangement we find it impossible to have the study periods of those pupils supervised by their regular teacher, and in this, we feel, there is a distinct loss to the pupil. In spite of the disadvantages as outlined above, we are securing good, efficient work in this overflow class. The arrangement is one, however, which should not continue indefinitely.

TEACHERS.

Several changes have occurred in our teaching force during the past year. At the close of the winter term Miss Beatrice Welch of Boothbay Harbor, who had charge of an overflow class made up of pupils from grade six and seven, resigned, and Miss Sara Abbott, a graduate of Farmington Normal School, was secured to finish out the year. Both Miss Welch and Miss Abbott are trained teachers and their services were valuable to the children.

The school suffered a distinct loss in the resignation of Miss Florence B. Spring, whose marriage to Mr. Percival Skillings of Gorham took place shortly after the close of the school year in June.

A splendid teacher, tactful and kind in her intercourse with the children, and keenly cognizant of the duties and responsibilities of her position, Miss Spring's fourteen years of service in Bridge Street School will be gratefully remembered alike by the pupils and parents of this community.

The sixth grade position made vacant by the resignation of Miss Spring is being filled very acceptably by Miss Marion Mattocks of West Sullivan, a graduate of Oastine Normal School. Miss Mattocks has had a successful teaching experience in the schools of Maine and Massachusetts, and I feel that we are fortunate in securing her services to carry on the work of this grade.

Mrs. Geneva Haskell of Westbrook, who was elected to have charge of the overflow class in September, was obliged early in the winter term, because of ill health, to give up her work for the remainder of the year. Mrs. Haskell is a successful teacher, and we regret very much the loss of her services. Her place for the remainder of the term, at least, will be taken by Mrs. Florence Spring Skillings of Gorham.

The professional spirit manifested by our teachers deserves, it seems to me, a special word of commendation. I feel that the public is not generally aware of the earnest efforts that our teachers are putting forth professionally to better fit themselves for the work of teaching.

I take pleasure in reporting that the teachers of this building have access to several of the best educational magazines published, and every effort is being made for self-improvement along teaching lines.

THE KEYSTONE SYSTEM FOR VISUAL INSTRUCTION.

The Keystone "600" Set purchased by the school last year at a total cost of \$560, has more than fulfilled our ex-

pectations. Besides the wealth of teaching material furnished with the "Set," we are able through an arrangement with the company to secure free lecture sets for the school at any time desired.

We find their use very profitable in the teaching, particularly, of language, geography and history. During the fall term illustrated lectures on Switzerland, Greece, South America and Canada were given by the teachers to the different grades in the building.

Our payments on this "Set" have progressed finely. Last year, through the generous support and co-operation of the parents of the children attending this school, we were able to pay \$429 of the purchase price, and plans are under way which will enable us, we hope, to make final payment on the "Set" early in the spring term.

REPAIRS.

The ceiling in the fourth grade room, which was in a dilapidated condition, has been replaced by a steel one. This adds much to the attractiveness of the room. Aside from this, only a few minor repairs have been made during the year.

SCHOOL NEEDS.

We are still in need of additional closet room for the better storing of school supplies.

The stairs in the older section of the building are badly worn and should receive attention soon.

Electric lights are very much needed in the four lower rooms of the building. There are many days during the fall and winter terms when the work of those grades is seriously handicapped by the darkness of the rooms.

In closing I desire to express the sincere appreciation of our teachers for the many helpful suggestions received during the past year.

Respectfully submitted,

G. V. SINCLAIR, Principal.

Report of the Principal of the Forest Street Grammar School

MR. R. J. LIBBY, SUPERINTENDENT OF SCHOOLS :

DEAR SIR:—At your request I submit the following report of this school for the past year :

As I review in mind the conditions existing throughout the year I must decide that we have had a very quiet year. We have had the same teachers and the same course of study. Most of my last year's report will apply equally well now.

I think I can say that the attendance has been less interrupted by sickness than usual. No diseases have become epidemic. I am quite sure that the number of pupils registered at the beginning of the fall term was greater than in any other year.

In the fifth, sixth, seventh and ninth grades the number has been greater than one teacher could well take care of. A part of the seventh grade have been placed in the eighth grade room and some of the sixth transferred to another school.

Every grade has some pupils who need individual help and who fail to do passable work without such help. It is imperative that such pupils in the grammar grades receive help, or they become diffident and discouraged and leave school as soon as they can. When a teacher has a large school she finds little time to give any worthwhile help to individual pupils. I feel that our schools would take on new life if no teacher had more than thirty pupils. Of course it would require more school-rooms and more teachers, but would it not be worth all it cost?

As the work for each grade is cut out for the teacher, her problem is to get that work done in a satisfactory manner. There are several conditions that hinder us and I wish to mention a few: Pupils are very dependent either on the teacher or on each other; they are keen at copying any written exercise; there is little time for making up lessons lost by absence or lessons poorly pre-

pared, and this last fact is known and fully appreciated by the pupils.

Every one connected with this school has tried to make it a successful year. I think good progress has been made and I am confident that the school is in better condition than it was a year ago.

Respectfully submitted,

JOHN A. TUTTLE, Principal.

Report of the Music Supervisor

MR. RICHARD J. LIBBY, SUPERINTENDENT OF SCHOOLS:

DEAR SIR:—I herewith submit my report of the Music Department for the past year.

In the grades, we have introduced a new set of books, the "Hollis Dann Music Course," and are finding them to be of a most practical value, combining, as they do, the song and scale basis of teaching and including an equal training of ear and eye. The book used for seventh, eighth and ninth grades, "Junior Songs," is especially fine, and is a great favorite with the pupils.

In the latter part of the winter term two grade orchestras were organized. The past fall term these were combined, making a larger group and opening the way for a greater variety of instruments, and tending to develop greater enthusiasm. The value of this work is already seen in the increased interest among the pupils, in orchestral work.

In our primary grades, the so-called "percussion orchestras" are proving their worth also, since they not only tend to develop a keener sense of rhythm, but a larger power of concentration, and broader idea of team work, than can be obtained in any other way. By means of these they are being trained for work in the regular orchestras when they are able to go into them.

By the time this report is in print violin classes will have been organized, as the plans are already under way. Miss Esther Libby, teacher of the Forest Street seventh

grade, is to have this work, and that fact, of itself, means success. These classes will be of inestimable value, and will serve as feeders to our grammar school orchestra, which in turn supplies material for the High School orchestra.

The work in the High School is going along smoothly and successfully, although there is yet much to be desired. One thing which should be done another year is the forming of Junior and Senior orchestras, the former to consist of the less experienced players. In this way they could have more attention given to them, and would get much more out of the work. No doubt this will be possible.

Our High School orchestra is larger this year, having seventeen members. We also have a Mandolin Club of thirteen members, including a 'cello and saxophone.

There is also a trio, consisting of piano, 'cello and violin, and at times this is augmented by a second violin and clarinet.

I feel very grateful to Mr. Walter Haskell, who has most generously furnished us with a bass viol. It will add much to our orchestra, and leaves only the viola to be obtained, in order to complete our string section. I hope another year this instrument may be purchased.

In our vocal classes we have a mixed chorus of seventy-two members, and a selected chorus of girls numbering about thirty.

I still feel that there should be assembly singing once a week for the entire school, and the work taken for credit done wholly by selection. In this way a higher grade of work may be done, and many pupils whose time might be used to better advantage could be eliminated, while still receiving the music work which is every pupil's right.

On the whole, I feel that the past year has been a most satisfactory one, and that the future looks most promising for the music work in our schools.

Respectfully submitted,

CARRIE B. PHINNEY.

Report of the Department of Home Economics

MR. R. J. LIBBY, SUPERINTENDENT OF SCHOOLS :

The work of this department during the year just closed has not differed materially from that of the preceding year.

The energy, enthusiasm and application of the various classes is most gratifying, and reports from parents indicate that in very many cases the good results of the training in both cooking and sewing are markedly noticeable in the home. Home work is encouraged in every way, as that is the test of the worth of the department to the community.

In February a meeting of the Ammonconglin Club was held at the Domestic Science room on one of the regular lesson days of the High School class in cooking. A demonstration was given by the class and a luncheon served to the twenty visitors.

The expenses of the afternoon were defrayed by a committee of which Mrs. King Raymond was chairman.

The experience was a most valuable one for the class, and the kindly interest displayed by the club was a real inspiration.

In December a dinner was served to the superintendent, school committee and guests, fourteen being seated at the tables.

The cheery room decorations, dainty hand-painted place and menu cards were most attractive, and were made possible by the kindness of Miss Child, Supervisor of Drawing, who freely gave to us hours of her time and labor.

As in the case of the luncheon, the expenses of the dinner were defrayed by the participants.

Following is the menu :

	Tomato Soup	
Olives	Crackers	Celery
Roast Loin of Beef, Brown Gravy, Squash, Mashed Potato		
Peas	Grape Jelly	
Fruit Salad	Hot Biscuits	
Vanilla Ice Cream	Fudge Sauce	Plain Cake
Chocolate Cake	Coffee	

The work of food study, table service, etc., has been given heretofore in the form of lectures and dictation. Text books recently purchased will be used by the girls in the future, and should prove of much benefit.

An exhibition of sewing in June was very largely attended. Several girls wore dresses which they had made in school; others wore their cooking caps and aprons. Samples of the stitches in plain sewing, fancy stitches, patches and darns, and many needle books, work bags, sewing aprons, cooking caps and aprons, under garments, and blouses were displayed.

The appearance of the room has been greatly improved by painted sheathing which covers the stone wall. The lighting arrangement was changed, much to the benefit of the sewing classes.

Additions to the sewing equipment were four pairs of shears, one large mirror, and one White Sewing Machine.

The electric disks, which had been in poor condition for some years, have been replaced by new ones which are proving to be most satisfactory. Other additions for the use of cooking classes include new enamel-cloth coverings for the tables, two metal-topped kitchen tables, a tea kettle, tins, and several pieces of aluminum.

The supply of table linen, dishes and silverware has been made sufficient for dinner service for eighteen, seated at three tables.

The work and equipment are under State supervision and both are ranked in class A.

The growth of the department made a part-time teacher necessary, and Miss Janet Spencer of Gorham High School filled that position most satisfactorily from January to June, devoting two afternoons a week to cooking classes.

Miss Spencer was not available in September, and the over-work of the Fall term has proved conclusively that a permanent assistant is an absolute and immediate necessity. The indications are that the enrollment next year will be equally as large if not larger than this year.

My sincere thanks is extended to school officials and teachers whose co-operation was so necessary and every one of whom responded so heartily.

Respectfully submitted,

MARY S. BYRNE.

Report of the Director of Physical Training

MR. R. J. LIBBY, SUPERINTENDENT OF SCHOOLS:

DEAR SIR:—In making out this report, I have endeavored to show what has been accomplished in the Physical Training Department this year.

Just before the ending of the school year last June, the Physical Training Department gave an exhibition of the elementary schools at the Warren League Grounds. Later a Field Meet was held for all grades above the fourth. The Bridge Street School won the greatest number of points and was awarded the pennant. There was also an Athletic Meet for the High School boys and one for the High School girls. This fall, on account of the physical examinations of all the children in the city, Physical Training was late in starting. Strength tests were given all the High School pupils, and will be given again at the close of the year. It is hoped that an increase in strength will be noted.

An erroneous idea prevails that the gymnasium is a place to come for a good time. While this is true to some extent, it is not the primary object. The object of Physical Training is to promote health through vigorous exercise, increased circulation and lung expansion. If the students would remember some of the exercises to take morning and night, they would not complain that their knees crack and that they are stiff after the gymnastic exercises.

Lectures in Hygiene are also being given to the High School pupils by Dr. Hall. These lectures are highly interesting and very instructive.

Student leadership in the elementary grades has been organized. The pupils chosen, after learning their lesson, stand in front of the class and conduct the exercises. This develops poise and confidence and has been successful in most schools.

New equipment which has been secured for the elementary schools this year, includes a horizontal bar for the doorway of each room, a posture chart for each room, and bean-bags for several of the schools. If a volley-ball or a basket ball could be provided for each of those schools which lacks such equipment, the enjoyment derived would be well worth the money expended.

Respectfully submitted,

ELOISE BUTTERFIELD.

Report of the Supervisor of Writing and Drawing

TO THE SUPERINTENDENT AND MEMBERS OF THE SCHOOL BOARD:

GENTLEMEN:—In submitting my report relative to the penmanship department, we feel that the results are more noteworthy and that each pupil should be commended for the noticeable improvement in the general written work. It is with keen interest and earnest endeavor that the classes in penmanship respond to their lesson hour for developing movement and analysis of letter form, which, in brief, is all that the lesson hour is for, not for perfecting, for that lies wholly with the individual pupil's efforts outside the formal lesson hour. A short daily period of practice should be given at home for the method to be mastered, the same as any lesson that calls for study, then followed by recitation, the recitation or applied result of home practice, to be considered as a standard for rating.

A new method, Zaner Method Writing, especially adapted to the development of writing in the lower grades, has been placed in grades one and two, Book One placed in the second as well as the first grade, that

the second grade children may also receive the developing of the very first fundamental principles. Another year we should like to place the books throughout the first five grades in regular graded order.

They are very clear and definite in their explanation of the graded lessons, and are especially adaptable to the child's mind and physical ability for the development of muscular writing.

The outstanding feature is the large writing for the first and second grades and the child being strictly held to this large writing in all written work, while being closely supervised for correct pen holding and swinging movement, that the habit for correct position and pen-holding may become permanent. If not held strictly to the developing method and requirements as to results, according to grade, each year the pupil and succeeding teacher finds the problem a growing struggle, almost beyond their power to overcome, of producing legible and acceptable writing.

It calls for instruction, in the lower grades especially, that is thoroughly wide awake, full of life and enthusiasm, that does not give way, but conquers without question or argument, that admits of no defeat. The future of a student's hand-writing is controlled wholly in the first and second grades, and for that reason the child should be given the best of equipment. Where older pupils may easily adjust themselves to adverse conditions, the little people must have seats that fit and are comfortable, and desks that are large enough to place material on in correct position, otherwise the very strict rules of correct methods of development cannot be upheld and followed, and we cannot expect to produce commendable results, results that are called for according to grade. It is to be hoped that our little people will be given first consideration as to equipment, for under favorable conditions they respond with interest to this foremost method of developing writing.

In all fairness of criticism, we note that this one study out of the entire school course, is involved in every

other study, and in consequence is constantly being shattered to pieces, so that in all fairness to it, it should be given greater consideration, allowed more time for formal practice, less demanded of it in other studies in the first grades, and all work, where writing is called for or the pencil or pen used, be given closer supervision, not allowing the child to write *at all* unless so supervised.

The outline for grammar and commercial high develops through constructive analysis, study of movement by noting cause and effect, practice of methods to induce ease and rapidity of movement, developing final power of execution through practical application—letter writing and general office problems—and gaining ease and speed in writing topics involving easy flowing, continuous thought, by taking dictation.

The results in the class-room practice are very commendable, showing earnest endeavor and an effort that would surely win, if this practice were continued beyond the formal lesson hour.

It is only by such outside practice that the penmanship can attain its true standard and be of credit to each individual pupil, for, in truth, it is the individual effort alone that makes possible progress and attainment.

Our drawing continues with enthusiastic support from the students, but with a growing desire for more.

Each phase of the study leads into individual creative work, strongly developing initiative power—the power to develop from their minds, and so not become mere copyists.

It opens the mind to the beauty that lies all about, to the discriminating choice of the simple rather than the complex, involving home building and general manner of dress, thus developing the finer side of the character, besides the field that it opens for the child's business life after leaving school.

Besides the drawing and study of color, a few problems along industrial lines are finding much favor with teachers as well as pupils. The value is instantly recognized and felt, in that it develops power to do as well as

to see, to use hands as well as eyes. Basic principles are developed to lead to pre-vocational work, thus fitting the pupil for work in business fields. There is no question but that through these industrial problems immense strides may be made in the direction of the all-important problem of fitting the boys and girls who leave our schools to find employment in those trades which demand artistic knowledge and skill.

The aim is to inculcate ideas of good taste and to develop the power and discipline which comes from planning a problem and executing it with care.

It has a salutary influence directly or indirectly upon every phase of instruction.

Our problems are very simple, in the first three grades, developing the use of the loom, first through simple paper weaving, later using a simple wooden loom, weaving with yarn or making rag rugs. There must be some definite object in view for the work to be alive, so we develop, plan and execute the making and furnishing of a doll house, which is ever a source of delight to the little folk.

A few problems have been worked out by the pupils of the Highland Lake school, in weaving mats and baskets of reed. The interest is very keen and the articles show very careful handling.

The work in this one line is very broad, for it not only involves the very careful working out of details, but it develops a broad understanding of design, both in form and color. We hope eventually to place work of this sort in all the grades.

Through the intermediate and higher grades more difficult problems with reed and raffia will be studied, and also wood working, using the coping saw, which line of work will appeal directly to the boys.

The general art course leads through pencil drawing, color, design, stenciling, commercial designing, lettering and illustrating, with simple problems in hand work, such as weaving, light wood working with coping saw, and, if the movement advances, clay modeling.

The movement for extensive work in the high school has been started, which all ninth grade pupils and the general high school student body desire to have instituted. It would have splendid support, and in the several lines the art course would offer, the possibilities for development are very broad. May we help support and bring to its fuller value the talent that now lies quietly smouldering, needing only the right impetus for it to make known its real power and ability.

Our June exhibits are always a keen delight to the pupils, and that of last year evidenced the possibilities through advanced study.

Through the eyes of our pupils we shall look forward to a higher plane for our school art.

Respectfully submitted,

ALICE J. CHILD,

Supervisor of Penmanship and Drawing.

Report of Attendance Officer

WESTBROOK, ME., Dec. 31, 1921.

TO SUPERINTENDENT LIBBY AND MEMBERS OF THE SCHOOL COMMITTEE:

GENTLEMEN:—I have the honor to submit the following report of the truancy conditions in the schools of Westbrook for the year ending with the above date.

While the conditions in Westbrook have not been entirely satisfactory as to truancy, many of the cases have been of such types that they could be easily traced directly or indirectly to the shortcomings of parents or guardians.

I wish to thank the teachers for their courtesy and help.

My report is as follows:

Home calls, 716.

School calls, 1084.

Pupils returned to school, 115.

Respectfully submitted,

WILLIAM F. BISHOP,

Attendance Officer.

Instructions to Teachers in Regard to Contagious Diseases

Teachers should exercise the greatest care in the treatment of all contagious diseases. If the teacher has the slightest suspicion that any case of contagious disease has been contracted in her room, or that a student having a contagious disease has been attending school and associating with other scholars, she should immediately notify either the Superintendent of Schools or the Secretary of the Board of Health, in order that the room and its contents may be disinfected with all dispatch and all necessary precautions taken to prevent a spread of said disease.

No pupil shall be admitted to or retained in the public schools who does not exhibit to his teacher satisfactory evidence that he has been vaccinated. No scholar afflicted with any contagious disease, or coming from a house where a contagious disease exists, shall be admitted to or retained in the public schools until such time has elapsed as herein stated, unless other provisions have been made by the Superintendent of Schools or the Secretary of the Board of Health:

(a) SMALL POX. No scholar sick with this disease shall be allowed to attend school until two weeks after recovery.

(b) DIPHTHERIA. No child having this disease, or any other scholars in the same family, shall be allowed to attend school during the progress of this disease or until two weeks after the membrane has disappeared from the throat of the patient.

(c) SCARLET FEVER. (Scarlatina, Scarlet Rash, Canker Rash.) In a malignant form this disease is one of the most fatal of contagious diseases, and the greatest care must be exercised in the prevention of its spread. No child having been ill

with Scarlet Fever shall be allowed to enter the public schools until after desquamation has taken place, and it is advised that two weeks be allowed to elapse after disinfection before the patient is allowed to enter school and mingle with other children. In families where there are other children who have been in contact with the disease, they may, provided the patient is completely isolated, be placed under the observation of a competent physician, and if, at the end of two weeks, there is no evidence that the disease has been communicated to them they may be allowed to return to school, provided that they do not again come in contact with the patient.

(d) MEASLES. Children having this disease, or those of the same family who have not had it, should not be allowed to return to school, until two weeks after the rash has disappeared.

(e) WHOOPING COUGH. This disease makes its appearance about ten days after exposure and its "run" is from six weeks to three months. As it is highly contagious the patient should not be allowed to return to school until after the spasmodic cough has entirely disappeared. It is not considered necessary to keep children in the same family, not afflicted with the disease, out of school.

(f) MUMPS. This is another disease that is far more contagious than is supposed by many, and the same precaution should be taken in cases of mumps as in other of the more serious cases of contagion. As the symptoms do not appear until about twelve days after exposure it is recommended that all children coming in contact with a case of mumps be excluded from school for at least two weeks after the symptoms have disappeared. The total duration of the disease is ten days and the patients may be admitted when the symptoms have disappeared.

(g) CHICKEN POX. It is considered necessary to exclude from school only those having the disease. The disease usually lasts about one week and the child may be admitted to school upon the disappearance of the eruption.

(h) INFANTILE PARALYSIS. From one to fourteen days are required by this disease to make its presence known after

exposure, and, from the facts obtained by investigations, it is thought to be contagious to a great degree. In order properly to guard against it the children in a family in which a case has been discovered should not be admitted to school for a full month.

(i) GERMAN MEASLES. (Rötheln). This eruptive disease has no relation to measles and scarlet fever, with which it is sometimes confounded. Its period of incubation is long, two to three weeks. The eruption appears earlier than in measles, often within twenty-four hours after the first symptoms. The rash fades about the third day or earlier and the fever gradually disappears with the rash. Desquamation is absent or very slight. The eruption is not so "blotchy" as that of measles; sometimes resembles that of scarlet fever. Incubation is longer than that of measles, and much longer than that of scarlet fever; period of invasion, shorter than that of measles; catarrhal symptoms not so severe as in measles; throat symptoms not so marked a feature as in scarlet fever. Children having this disease, or those of the same family who have not had it, should not be allowed to return to school until two weeks after the rash has disappeared.

In all cases the rule now in force requiring a physician's certificate of a child's recovery should be enforced, and, with the exception of cases d, e, f and g, the teacher should be satisfied that the house of any scholar having the above-named diseases shall have been disinfected by the Board of Health before allowing the scholar to resume work in the school and mingle with other scholars.

REPORT OF THE Sealer of Weights and Measures

To the Honorable Mayor and City Council:

GENTLEMEN:—I have the honor to submit the following report of my official duties as the Sealer of Weights and Measures for the municipal year of 1921:

Total No. scales	tested, 177	Condemned, 5
“ “ weights	“ 358	“ 0
“ “ dry measures	“ 0	“ 0
“ “ liquid measures	“ 75	“ 3
“ “ yard sticks	“ 20	“ 0
“ “ automatic pumps	“ 47	“ 1
“ “ milk jars	“ 0	“ 0

Amount paid City Treasurer, \$82.17.

Respectfully submitted,

ERNEST S. ESTES.

Report of the Health Officer

WESTBROOK, ME., Jan. 16, 1922.

To the Honorable Mayor and City Council of the City of Westbrook.

I wish to submit the following report for the year ending December 31, 1921 :

Diseases reported to the office classified as follows :

Scarlet Fever,	38
Diphtheria,	22
Whooping Cough,	16
Chicken Pox,	11
Tuberculosis,	4
Measles,	4
Pneumonia,	3
Typhoid Fever,	3
Encophalitis Lithargica,	1
Total,	102

NUISANCE COMPLAINTS.

There were eighty-five complaints of various kinds filed at the office during the year. All have been thoroughly investigated and corrected in the best possible manner. A number of these complaints were on account of so many dumps throughout the city.

After thorough investigation, accompanied by his Honor the Mayor and Mr. Curtis, we found it advisable to establish two more public dumps, which have the careful attention of the Street Commissioner at all times. This has eliminated a number of the smaller dumps, but I feel much work should be accomplished along this line.

I wish to thank this year's Council for the great interest they have shown in the construction of sewers.

The Spring Street sewer, when completed, will be a great benefit to the residents in that locality.

The sewer on Longfellow Street, constructed this year, has relieved a bad condition in that vicinity. I would recommend to this year's Council the extension of the King Street Sewer.

There is one other matter which I think is of great importance in a city of this size, and one which has caused considerable complaint. It is on account of our poor system of collecting garbage. I would recommend that the council take this matter up at an early date and establish some system to place this under sanitary control.

In closing I wish to extend his Honor the Mayor and members of the City Council my appreciation for the prompt manner in which they have granted my every request, and for their courteous treatment and hearty co-operation throughout the year.

Respectfully submitted,

PATRICK H. WELCH,

Local Health Officer.

REPORT OF THE Plumbing Inspector

To the Honorable Mayor and City Council :

I wish to make my report for the year 1921, as Plumbing Inspector, of the work that has been reported to me by the plumbers.

The number of fixtures installed is as follows : Water closets, 48; lavatories, 39; bath tubs, 34; sinks, 28; set trays, 16; slop hopper, 1; soda fountains, 4; sinks re-trapped at the time new plumbing was being installed in old houses, 16.

Respectfully submitted,

JOHN W. OUELLETTE,

Plumbing Inspector.

REPORT OF THE TRUSTEES OF Woodlawn and Saccarappa Ceme- teries and Riverbank Park

To the Honorable Mayor and City Council of Westbrook :

GENTLEMEN:—The Trustees of Woodlawn and Saccarappa Cemeteries and Riverbank Park respectfully submit their annual report for the year ending December 31, 1921.

WOODLAWN CEMETERY

RECEIPTS.

Interest on Bonds,	\$ 909 14	
Opening and trimming graves,	668 03	
Foundations for monuments,	330 20	
From sale of wood,	80 00	
Sale of lots and miscellaneous,	2,943 54	
	<hr/>	\$4,930 91

EXPENDITURES.

Land purchased from L. R. Taggart,	\$2,000 00	
For labor and material,	5,330 61	
	<hr/>	\$7,330 61
Expenditures more than receipts, in- cluding purchase of land,		\$2,399 70
Balance on hand December 31, 1921,		\$2,649 88

WOODLAWN CEMETERY BONDS

By balance Dec. 31, 1920,	\$16,660 63	
By Bonds sold in 1921,	1,522 25	
	<hr/>	\$18,182 88
Total receipts for the year, including sale of Bonds,		\$6,453 16

IMPROVEMENTS.

Early in the year the Trustees took up the matter of purchasing the lot of land adjoining Woodlawn Cemetery comprising some 16 acres, owned by Leland R. Taggart. Mayor Lawrensen favored the proposition, and after getting the consent of the City Council the land was bought at a price satisfactory to all concerned. The work of removing the old fence was started in the winter months, also the cleaning up of the wooded portion of the new land. Some 2500 feet of old fence has been taken away, part of which was used to construct a fence on lines running between Cemetery land and land of Wingate Titcomb.

Eight hundred feet of street 25 feet wide has been graded on the acquired land, and five 16-grave lots made, fronting on new street. The gully at northerly end has been filled up, which forms another pond. The new land was thoroughly cleared of undergrowths, which gives it a very improved appearance. A new shed was built in the rear of the tool house, as additional storage room was badly needed.

The trustees believe that in no year since Woodlawn was dedicated as a cemetery has there been such a marked improvement as the present, and with proper management in the future Woodlawn Cemetery will be more beautiful each year.

PERPETUAL CARE.

We cannot close this report without speaking once more of the importance of getting all lots under perpetual care. We trust those owning lots not provided with care will have this important matter attended to in the near future, thereby helping not only to improve their own lot, but their neighbors', and the general appearance of the whole cemetery.

More flower beds were set out this year than ever before, and lots, walks and avenues were kept in the best possible condition. It will be the aim of the trustees in the future, as in the past, to spare no pains in their en-

deavors to make Woodlawn one of the most beautiful cemeteries in the State.

SACCARAPPA CEMETERY

RECEIPTS.

Interest on Bonds,	\$127 87	
Appropriation,	150 00	
Opening and trimming graves,	156 80	
Annual care and miscellaneous receipts,	179 25	
	<hr/>	\$613 92

EXPENDITURES.

For labor and material,	\$518 84
Balance unexpended,	95 08

Many lots have been rebuilt and a large number of sunken graves filled and monuments righted during the year. The lots have been well cared for and the general appearance shows marked improvement each year.

PERPETUAL CARE.

No money could be better expended by those owning lots in Saccarappa Cemetery, than in purchasing a bond for perpetual care on their lots. By getting lots under care you are contributing not only to the looks of your own lot, but adding greatly to the general appearance of the already beautiful and historic burying ground where rest the remains of very many of the early residents of our City.

RIVERBANK PARK

RECEIPTS.

From rental of houses,	\$446 00	
Stephen W. Manchester Post, American Legion, rental of grounds,	25 00	
Clubs and societies,	60 00	
Miscellaneous receipts,	38 00	
	<hr/>	\$569 00

EXPENDITURES.

For repairs on houses, new cement walk at Mitchell house, insurance, water, lighting, labor and material,	\$699 26	
	<hr/>	699 26
Overdrawn,		\$130 26

The following societies, clubs and organizations contributed flower beds: Saccarappa Grange, Stephen W. Manchester Post, American Legion, Excelsior, Current Events, Ammoncongin and Woman's Clubs, also Cloudman Relief Corps, No. 18, the East and West End W. C. T. U. and Mizpah Chapter, No. 3, O. E. S.

Owing to contributions thus obtained and the interest manifested by the above named clubs, etc., the trustees were enabled to give Riverbank more attention than it was possible to do in past years. The grounds surrounding the Soldiers' Monument presented a very creditable appearance, the flower beds were very beautiful and were a cause for much favorable comment by the public. The Trustees wish to express their appreciation of the interest manifested and contributions received during the year in behalf of Riverbank. The Trustees believe the funds received from rental of houses are not sufficient to carry on the work of improving and beautifying the Park grounds. Westbrook is far behind other cities in this line of city work. We believe we are justified in asking for a sufficient appropriation to carry on the work of improving this one spot in our City dedicated as a place of recreation and enjoyment. We should have a children's playground, provided with good playground equipment. More walks should be built and more trees, shrubs, etc., planted. A plan should be made of the grounds and then developed according to the plan, as much as possible each year. To this end the Trustees are going to petition your honorable body for a substantial appropriation for Riverbank for 1922, believing it will meet with the approval of a large majority of our citizens.

Respectfully submitted,

A. E. GREENLAW,	} Trustees.
HENRY L. HENDRICKSEN,	
EDWIN J. LAVERTY,	

Report of the Overseers of the Poor

To the Honorable Mayor and City Council :

We herewith submit our report for the municipal year of 1921.

We have assisted 62 families at a cost of \$8,370.82. The receipts from the State and other towns have been \$2,598.99, leaving a net cost of \$5,771.83.

The appropriation was \$7,000.00.

The Almshouse and Farm have been under the care of Mr. and Mrs. Frank Edwards, who have completed their second year of faithful service in a very satisfactory manner.

The appropriation was \$5,000.00, the expenditures were \$9,141.46, receipts \$5,049.27, leaving a net cost of \$4,092.19.

The average number of inmates was 13. There have been four deaths during the year.

All of the buildings have been painted, which has improved their appearance a great deal.

Respectfully submitted,

FRED B. BURNHAM, Secretary.

REPORT OF THE Trustees of Memorial Library

To the Honorable Council of the City of Westbrook :

GENTLEMEN:—The Trustees and Regents of the Memorial Library beg leave to submit the following report.

The organization for the year was as follows: President, W. K. Dana; Vice President, H. E. Townsend; Secretary, E. J. Haskell.

Auditing Committee: Mayor Lawrensen, J. A. Warren, George O. Pike.

Purchasing Committee: H. E. Townsend, E. L. Pickard, E. J. Haskell.

The librarian and the assistants are working on the "Newark System", charging the books which we think will meet with the approval of our citizens. The expense of this is met by the interest on the Walker Fund that remained after the cost of the library building and grounds had been paid. The work of the library for the past year is shown by the librarian's report.

REPORT OF LIBRARIAN

To the Trustees and Regents of the Memorial Library of Westbrook :

GENTLEMEN:—I have the honor to present the librarian's twenty-eighth annual report, indicating the work of the library for the year 1921.

ACCESSIONS.

Six hundred and eighteen books have been added to the library and have been classified as follows: 383 fiction, 43 history and travel, 25 biography, 25 philosophy or sociology, 13 arts or science, 34 reference literature, and the remainder miscellaneous. Of this number 152 were juveniles.

One hundred and sixty-eight books were withdrawn, leaving a total of 17,740 volumes now in the library. Of the accessions, 500 were purchased, 65 were bound magazines and 53 were gifts.

Mrs. Philip Dana gave the library 44 books of reference, comprising early numbers of Scribner's Magazine, Littell's Living Age and a set of Washington Irving's works.

The Ladies' Circle of the Universalist Church placed the "Universalist Leader", a weekly paper, in the reading room for the current year. They also gave a book, "From Good Luck to Gloucester," by Frederick A. Beebe, being an account of the first church of this denomination in America.

REGISTRATION.

There have been 409 new applicants for cards, a gain of 45 over last year, making the total registration 9,113.

CIRCULATION.

Forty-eight thousand two hundred and forty-four books were taken from the library for home use, exceeding the last year's circulation by four thousand seven hundred and forty-four.

Eighty-six per cent of the books taken were fiction, making a gain this year of one per cent for non-fiction.

The library was open 304 days during the year. The average number of books loaned per day was 158.

The largest number of books delivered in one day was 407 on November 12th. Smallest number 41, July 27th.

Number of mail notices sent for overdue books, 432.

READING ROOM.

The number of books and magazines recorded for reference was 4,118.

The Reader's Guide refers frequently to "The Living Age," and this periodical was added for its value in reference work.

The rest of our periodicals and magazines remain the same.

FINANCE.

Cash on hand January 1, 1921,	\$ 15 55	
Total cash receipts,	224 70	
Expenditures,		\$233 46
Balance on hand January 1, 1922,		6 79
	<hr/>	<hr/>
	\$240 25	\$240 25

GENERAL STATISTICS.

Total number of books in the library,	17,744
Volumes added during the year,	618
Volumes withdrawn,	168
Increase in registration,	409
Outside circulation,	48,244

Respectfully submitted,

JENNIE G. ANDREWS, Librarian.

The circulation has increased over last year, showing the people have made use of the library. The work has been carried on to the satisfaction of all, and we would respectfully ask that the sum of \$4,000.00 be appropriated for the expense of the library for the municipal year.

JOHN LAWRENSEN,
W. K. DANA,
J. A. WARREN,
E. L. PICKARD,
H. E. TOWNSEND,
JOSEPH KNIGHT,
OVIDE HARVEY,
G. C. PIKE,
E. J. HASKELL.

Report of City Solicitor

WESTBROOK, MAINE, Jan. 1, 1922.

To the Honorable Mayor and City Council:

GENTLEMEN:—I take great pleasure in submitting my report for the year 1921.

This past year has been a rather active one in this department, and although many of the larger matters brought to my attention failed to materialize, yet I have adjusted a number of minor cases and brought three actions. Two of these cases are still pending in Superior Court in Portland. These were passed on to my successor, Attorney Towle. A few minor matters will also require the attention of the incoming administration.

Respectfully submitted,

WADE L. BRIDGHAM, City Solicitor.

Street Commissioner's Report

To His Honor, the Mayor, and City Council :

GENTLEMEN:—Herewith is submitted the annual report of the Street Department for the year ending Dec. 31, 1921 :

It appears that the work accomplished by this department during 1921 has been much appreciated by the public, for which this department as a whole wishes to thank the people of Westbrook.

STATE ROAD WORK.

Two and a half years of State Road was completed, costing	\$6,864 53
500 feet of curbing was added to Main Street. Extra cost,	600 00
Total,	<hr/> \$7,464 53

STREETS RE-SURFACED.

The entire length of Conant, Gorham, Longfellow, Park Road and Austin Streets, also part of Cumberland and Pierce Streets, were re-surfaced with cinders.

By use of the road machine East Bridge Street was re-built from Park Road to Riverton. Duck Pond Street was re-constructed its entire length, also Pride Street, by the same method. Mechanic Street to top of hill, and Conant Street to residence of William T. Hawkes, were both treated with Water-Bound Macadam.

SIDEWALKS.

One side of Mechanic Street to Valentine Street was given an Asphalt top, costing \$286.88. Amount appropriated, \$300.00.

One side of Central Street from Main Street to Valentine Street was also given an Asphalt top, costing \$196.50. Amount appropriated, \$300.00.

A new 5-foot cement sidewalk was built on Brown Street, extending from Bridge Street to the first sharp turn, at a cost of \$950.00.

A new brick walk was built fronting the store of Evangelist Vachon, at a cost of \$37.50.

50 feet of granite curb was set at the corner of Brown and King Streets, costing \$67.50.

A new brick walk was built fronting the stores of Stults and Knight Bros. & Co., costing \$116.00.

Many other small jobs upon sidewalks, too numerous for detail, were completed.

SEWERS.

Waltham Street Sewer was extended 150 feet with an 8-inch pipe and fittings. Cost, \$133.18.

Haskell Street Sewer was extended 150 feet with an 8-inch pipe and fittings. Cost, \$155.20.

Longfellow Street Sewer was extended 448 feet with a 12-inch pipe and fittings, also two catch basins. Cost, \$450.50.

Stroudwater Street Sewer was extended 310 feet with an 8-inch pipe and fittings. Cost, \$652.54.

Bridge Street Sewer was extended 883 feet with an 8-inch pipe and fittings, also two manholes, at a cost of \$2,447.49.

Spring Street Sewer extension was completed with the exception of 70 linear feet. This was the deepest sewer job ever undertaken in this city, and also the deepest sewer constructed in this State during 1921. Two manholes were built at a depth of 20 and 23 feet respectively, below the surface.

At first the City called for contract bids for its construction, and the lowest bid being \$14,000.00, the City decided to reject all bids and undertake its construction with their own force.

Consequently its construction began under the supervision of the Street Commissioner and H. W. Foster, Civil Engineer. Only local help was employed upon this work, thereby distributing the labor cost to our own residents.

The 70 linear feet of sewer remaining undug will be comparatively cheaper to construct, for the reason that it is only about 11 feet deep, instead of 23 feet at its lowest depth heretofore.

The total cost of construction thus far has been \$11,369.73.

Incidentally it may be interesting to note that the entire length of our concrete road was treated with a tarvia surface at a cost of \$1,221.20.

During the year this department has earnestly endeavored to meet all complaints and desires of the people in a fair-minded way.

Respectfully submitted,

CHARLES E. CURTIS,

Street Commissioner.

REPORT OF THE Committee on Street Lights

WESTBROOK, ME., February 28, 1922.

To the Honorable Mayor and City Council:

GENTLEMEN:—During the past year, 1921, we did not deem it advisable to change over the present system of street lighting on our main street to conform to the one recently installed along Forest Avenue in Portland, on account of incurring too big an expense.

We have, accordingly, had installed about twelve 100 C. P. lights at the darkest and most dangerous places along Main Street, from Ash Street to the end of the double track on lower Main Street.

Outside of the above mentioned additions, only a few small lights have been installed as petitioned for and found to be necessary, thus keeping the amount spent well within the appropriation.

Following is a list of additions and changes made during the year 1921.

Respectfully submitted,

RALPH H. FILES,
LENDALL M. GOFF,
HENRY H. B. HAWES,

Committee on Street Lights.

The following changes and additions to the Street Lighting have been made during the year 1921, as per order of the Street Lighting Committee:

February 24—	2	32 c. p.	Myrtle St.
April 8—	1	32 “	Valentine St. near Cartret residence. (Location changed.)

May 1—	1	100 c. p.	East End Main St., end double track.
May 1—	1	100 "	Corner Main and Marrett St.
	1	100 "	Main St. near E. L. Pickard residence.
	1	100 "	Main St., B. & M. crossing, East End.
	1	100 "	Main St., corner Warren Ave.
	1	100 "	" " East M. C. crossing.
	1	100 "	" " corner Locust St.
	1	100 "	" " opposite Chute residence.
	1	100 "	Main St., corner Stevens Ave.
	1	100 "	" " corner Speirs St.
	1	100 "	" " corner Dunn St.
	1	100 "	" " opposite Philip Dana residence.
	1	100 "	Main St., opposite Harry Lowell residence.
	1	100 "	Main St., corner Ash St.
	1	100 "	Replaces 1 32 c. p., B. & M. crossing, West End.

Report of the City Physician

WESTBROOK, MAINE, March 1, 1922.

To the Honorable Mayor and City Council:

I hereby submit my report for the year ending December 31st, 1921.

The number of calls made at the City Farm was 42. Number of house calls in the City, 58. Number of office calls, 30. One confinement case.

I did not have to make quite as many calls as last year.

The inmates were well cared for.

Yours truly,

ADJUTOR COUTURIER,

City Physician.

Report of the Building Inspector

Alfred Laravee, Brown Street, garage,	110 00
Fred Eugley, Brackett Street, garage,	300 00
George Roberts, Forest Street, garage,	250 00
Roy A. Roberts, Main Street, garage,	900 00
Fred Rivers, Brown Street, garage,	50 00
Celia Barbour, Mechanic Street, garage,	300 00

Approximate cost of new buildings, alterations and repairs, \$123,150.00.

Respectfully submitted,

GEORGE E. WEYMOUTH,

Inspector of Buildings.

List Submitted by Lemuel G. Babb, Collector and Treasurer

Chapter 166 of the Public Laws of the State of Maine,
for the year 1907.

An act for the better collection of taxes.

Be it enacted by the Senate and House of Representatives in legislature assembled as follows :

That on and after January first, nineteen hundred and eight, all municipal officers of the cities and towns in making out the yearly report shall cause to be printed in said report the names and amounts of all delinquent tax payers which have been committed to the treasurer or collector for collection.

The failure of non-performance of this duty shall be not less than five dollars nor more than twenty-five.

Approved March 27, 1907.
